Passenger contains attributes for verification
and safety purposes

**Project Phase 2-4
Logical Data Model**

Passenger

PK	Passenger_ID
	First_Name
	Last_Name
	Phone
	Email
	Date_Of_Birth

Aircraft

PK	Aircraft_ID
FK	Airline_ID
	Model
	Capacity

Airline

PK	Airline_ID
	Airline_Name

Books

PK, FK	Passenger_ID
PK, FK	Booking_ID

Flight

PK	Flight_ID
	Departure_Date_Time
	Arrival_Date_Time
	Departure_Airport
	Arrival_Airport

FlightAssignment

PK, FK	Flight_ID
PK, FK	Airline_ID
PK, FK	Aircraft_ID
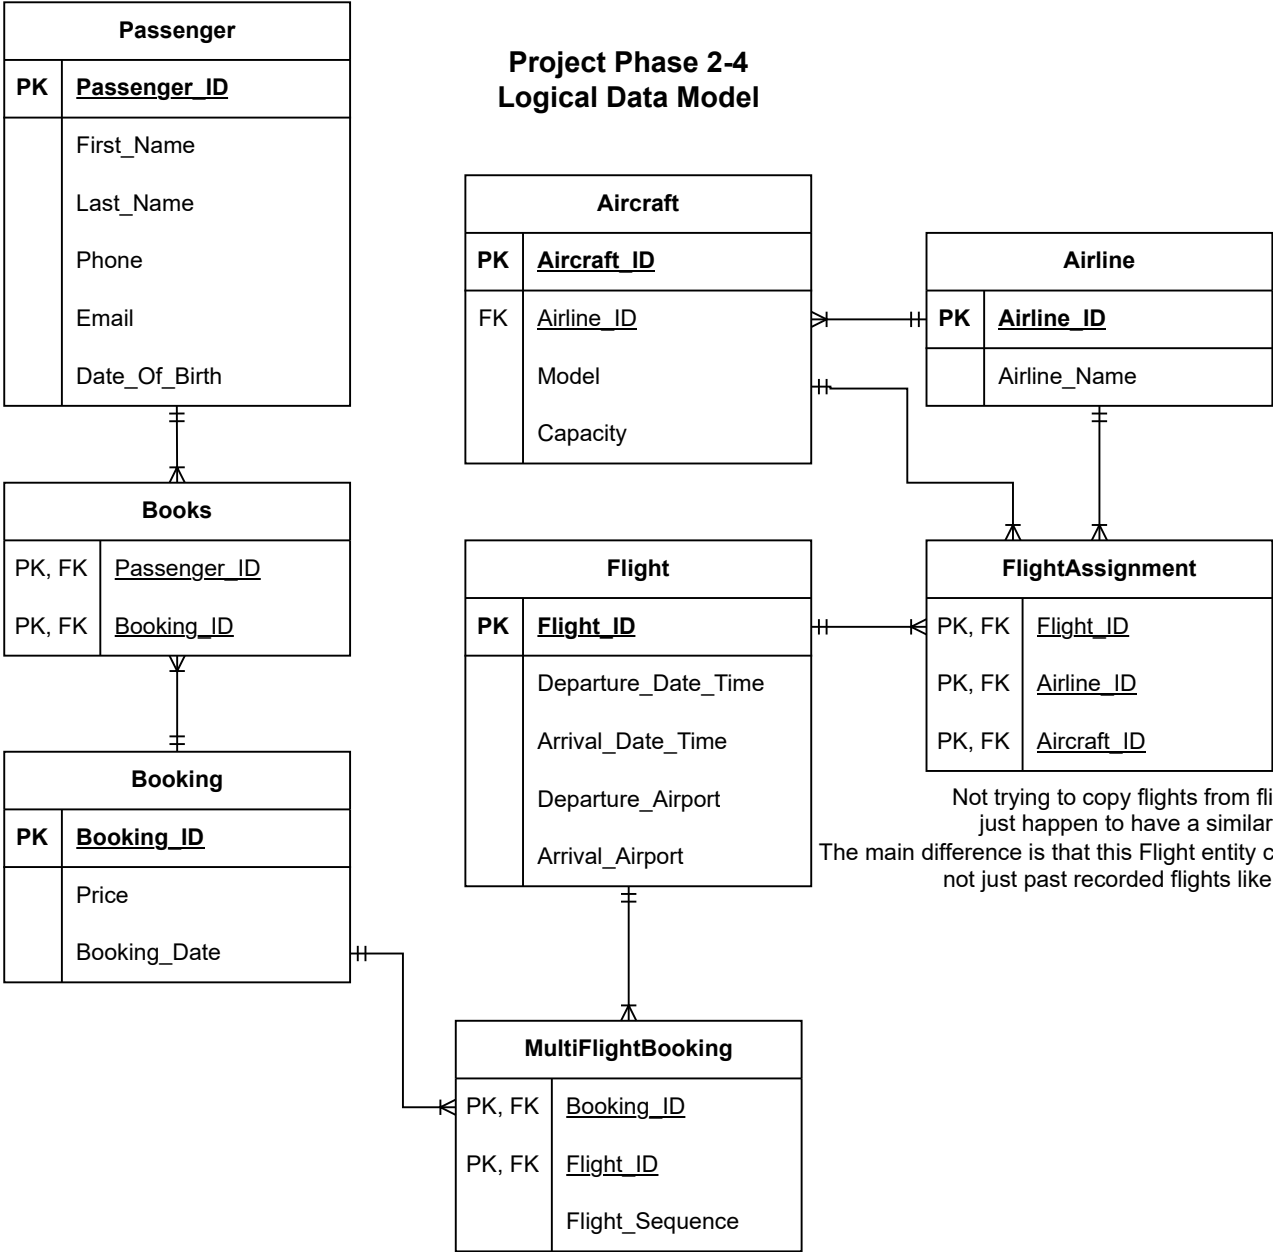

Not trying to copy flights from flights_db,
just happen to have a similar entity
The main difference is that this Flight entity can have future flights,
not just past recorded flights like flights_db

Booking

PK	Booking_ID
	Price
	Booking_Date

MultiFlightBooking

PK, FK	Booking_ID
PK, FK	Flight_ID
	Flight_Sequence
